

# **MOBILE APP DEVELOPMENT CLUB**

**NEWSLETTER ODD SEMESTER  
(2020-2021)**

Mobile app development club conducted an event Apptronics 2.0 on 15<sup>th</sup> October 2020, from 11:00 am onwards. The event was aimed at utilizing the information and skills imbibed like the prerequisite programming concepts and logic that will strengthen the foundation of critical thinking, and also for gaining the awareness of mobile app technology.

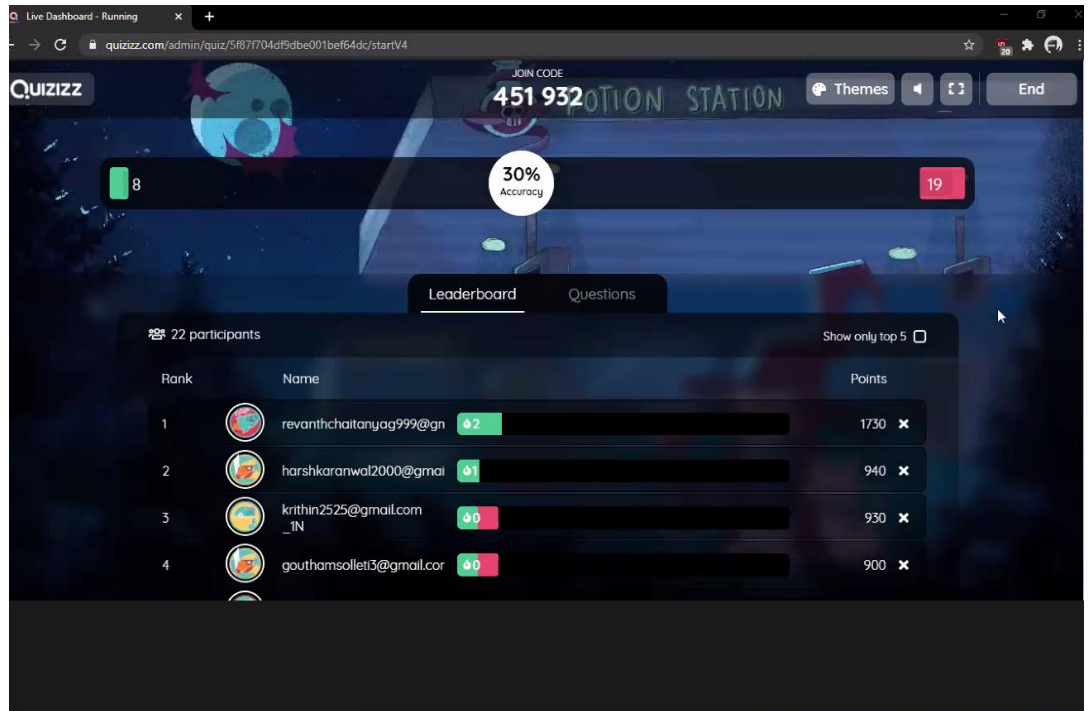

The event had three rounds namely Quiz time (consisting of technical MCQ), Quick Pic (Pictionary round) and the Final Battle (consisting of both, MCQs and Pictionary). 38 participants from ECE, CSE, ISE and BSH department participated in the event. 21 students were selected for the round 2 and final round had 12 students.

The first round began at 11:00 am. The number of students that participated for round 1 was 81. All the participants were connected using Zoom and the rounds were conducted using “Quizizz” site. The participants were required to answer technical questions in a span of 30 minutes. The questions were designed to check the general awareness of the participants about the various technologies that exist in the

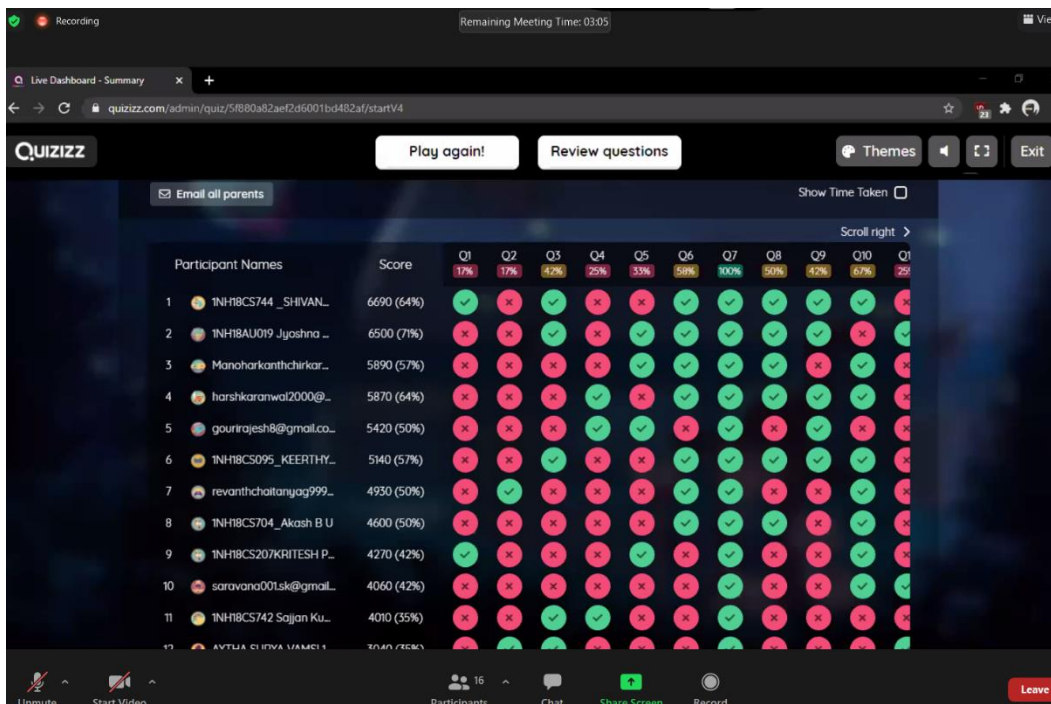

field of computer science. The event ended at 11:30 and 21 students were chosen for the second round.

The second round namely Quick Pictionary consisted of The shortlisted 21 students were required to identify the famous tech icons and name them in the span of 30 minutes.

The second round ended at 12:30 PM and 12 finalists were chosen.

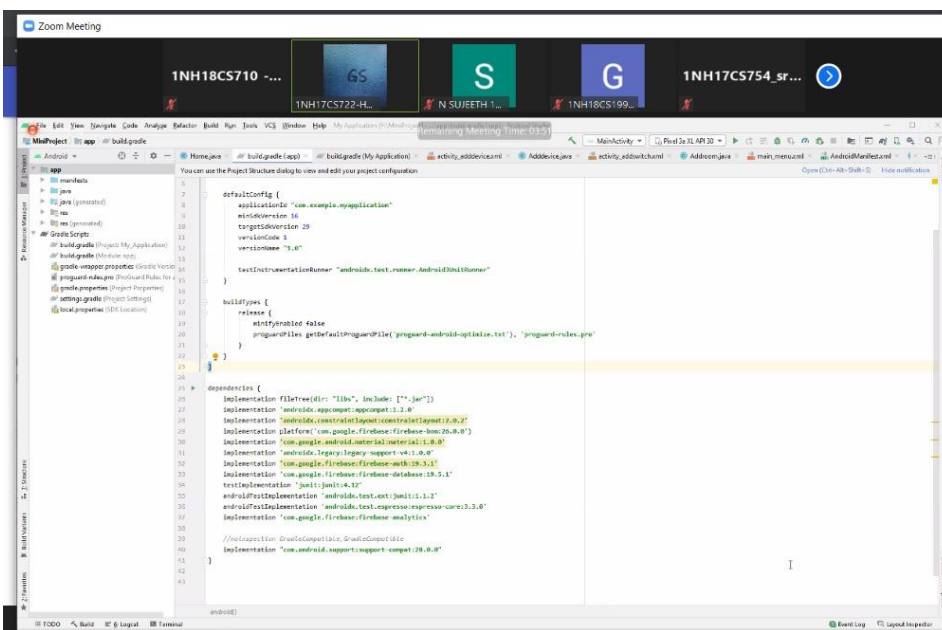

The final round began at 1:00 PM and consisted of both, MCQ and Pictionary. The second round ended at 1:30 PM and the winners were announced.

The winners of the event were - Shivanand G Prabhu (1<sup>st</sup> position) from CSE department, Jyoshna G.V (2<sup>nd</sup> position) from Automobile Engineering department and Manohar Kanth(3<sup>rd</sup> position) from CSE department

The Mobile app Development club conducted an event, the Android App Development Workshop, on 13<sup>th</sup> of November 2020, 11:00 AM (Online) via Zoom Platform. The workshop was conducted by Harikrishnan GS, a student of Dept. of Computer Science & Engineering, NHCE.

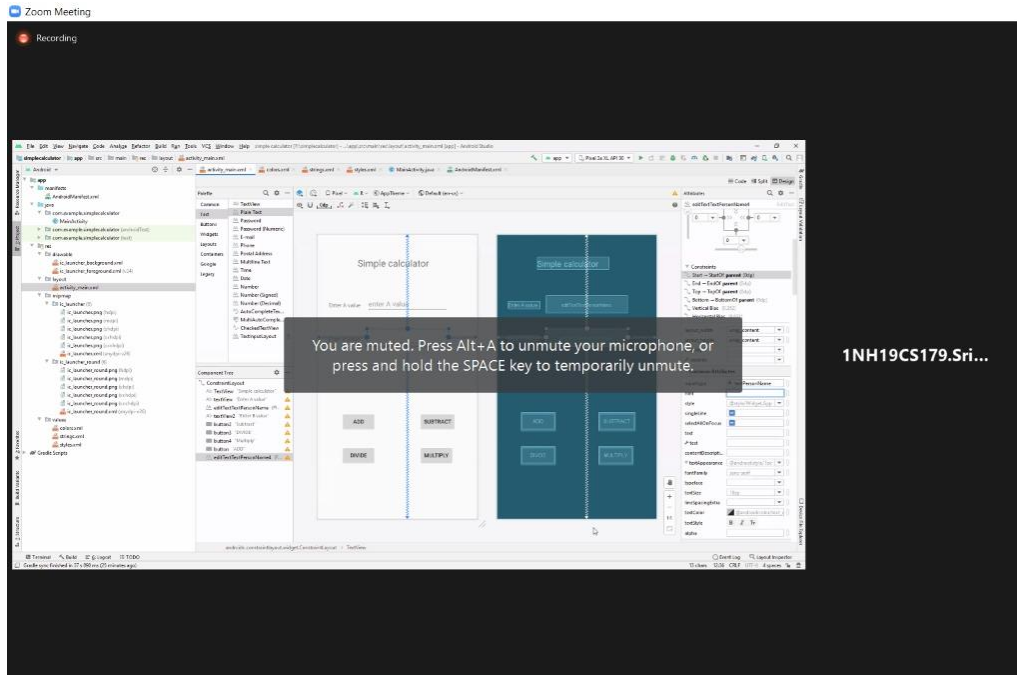

This was the fourth time our club organized this workshop. Registration links and download details of Android studio were sent to the students. The idea of Android App Development is booming nowadays and so students of NHCE were

very enthusiastic regarding the event.

The first half comprised of Harikrishnan giving an introduction to the students about Android, the tools and software involved in the process of android application development.

Then they were explained how to develop a simple 'Calculator' application. He taught them about the UI/UX design and gave them a clear picture of how to make the UI interactive. He simultaneously developed the Calculator App with the students so that they do not face any difficulty.
