Event Report

Title	Workshop on Analytics on Cloud Platforms.	
Department	Department of Computer Science and Engineering	
Date	From: 11/012/2023	To: 11/012/2023
Time	From:10 AM	To: 4.00 PM
Brief Description	The Department of Computer Science and Engineering organized one day workshop on "Analytics on Cloud Platforms" on 11/012/2023. Cloud Smart Analytics is a flexible, open, and secure data analytics platform that provides an easy path to becoming an intelligence-driven organization. It builds on Google's decades of innovation in AI and building internet-scale services, and is based on the same proven and reliable technology principles that power Google's services (e.g. Search, Gmail, Maps, YouTube). Organizations choose Google Cloud to build their data cloud for its ability to fuel data-driven transformation. Organizations are looking to find new opportunities to transform customer experiences, boost revenue, and reduce costs. Across all industries, leaders are using data and AI as a strategic asset to reveal business outcomes during economic uncertainty. Learn how to unlock value with data and AI with the latest innovations from Data Cloud. The resource person of the workshop was Mr. Ramnath Iyer, Founder & Director of PG program in Aravali Bangalore. The entire workshop will focus on important features of Analytics on Cloud Platforms. Around 40 participants took part and benefitted from the workshop.
