

Name of the Event	Alumni Talk
Date	19th November 2025
Beneficiary	5 th Semester students
Write Up	<p>The Department of CSE, in collaboration with the Alumni Association, organised an “Alumni Talk” on 19th November 2025 from 3:00 pm to 5:00 pm. The invited speaker was Mr. Mekala Harsha Vardhan Sai, Associate DevOps Engineer at Unisys. During the session, he emphasised the importance of Cloud and DevOps projects in providing practical, hands-on learning experiences. He explained how such projects enabled students to understand the process of building, deploying, automating, and maintaining real-world applications on cloud platforms using DevOps practices.</p> <p>Examples included deploying websites on cloud storage, creating CI/CD pipelines with GitHub and Jenkins, containerising applications with Docker, deploying scalable services on virtual machines or Kubernetes, and implementing system monitoring.</p> <p>These activities, he noted, effectively bridge the gap between theoretical computer science concepts and industry requirements, making them ideal for labs, mini-projects, final-year projects, and preparation for careers such as Cloud Engineer, DevOps Engineer, or Site Reliability Engineer.</p> <p>The event was well received, with more than 60 fifth-semester CSE students attending, and gaining valuable insights.</p>
