

NEW HORIZON COLLEGE OF ENGINEERING

Name of the Event	ALUMNI TALK
Date	16 th March 2026
Beneficiary	4 th semester students
Write Up	<p>The Department of Computer Science and Engineering jointly with the Alumni Association, organized an “Alumni Talk” on 16 March 2026 from 11:00 AM to 12:00 PM. The invited speaker was Mr. Arvind Basavaraj Vadavalki, an esteemed alumnus currently working as a Team Leader at Excerpt Technologies Pvt. Ltd. During the session, he encouraged students to take up simple yet impactful projects to strengthen their technical foundations. He recommended building applications such as a Student Management System or Library Management System to understand database concepts and CRUD operations. He also suggested creating a college event website to practice web development using HTML, CSS, and JavaScript, and developing a basic chat or messaging application to learn networking and client–server architecture.</p> <p>In addition, Mr. Arvind motivated students to explore data analysis mini-projects using Python, enabling them to analyze datasets and visualize trends. He also highlighted social network analysis projects, which help students understand graph theory concepts like connections and centrality. Through these suggestions, he emphasized how such hands-on projects improve logical thinking, enhance technical competency, and help students build a strong project portfolio beneficial for internships and future career opportunities in the software industry.</p> <p>The session was highly engaging and informative, with more than 60 fourth-semester CSE students attending and benefiting from the event.</p>
