Beneficiary	4 th semester students
Write Up	<p>The Department of Computer Science and Engineering, in association with the Alumni Association, organised an Alumni Talk on 15th April 2026 from 11:00 AM to 12:00 PM. The session was delivered by Ms Ishika Jaiswal, an alumna of the department, who is currently working as a Software Quality Assurance Engineer at QSC, Bangalore.</p> <p>During the interaction, Ms Ishika Jaiswal shared her professional journey and provided valuable insights into the software industry, with particular emphasis on the role of quality assurance. She highlighted the importance of developing strong foundations in programming concepts, database management, and software testing methodologies, while explaining how academic knowledge is directly connected to real-world applications.</p> <p>She encouraged students to actively engage in hands-on projects such as management systems, web-based applications, and basic client–server programmes to enhance their practical exposure. The speaker also stressed the importance of learning modern development and testing tools, using version control systems, and practising effective debugging techniques to improve coding accuracy and overall software quality.</p> <p>The session was highly interactive, enabling students to clarify their queries regarding career opportunities, required skill sets, and industry expectations. Ms Ishika Jaiswal motivated the students to continuously upgrade their technical skills, work on meaningful projects, and develop a strong professional portfolio to enhance their employability.</p> <p>Overall, the Alumni Talk proved to be both informative and inspiring, providing students with a clearer understanding of industry demands and guiding them towards building successful careers in the software domain. More than 60 fourth-semester CSE students actively participated in the session and benefitted from the interaction.</p>
