Write Up	<p>The Department of Computer Science and Engineering, in association with the Alumni Association, organised an Alumni Talk on 7 May 2026 from 2:00 PM to 3:00 PM at A-205 for sixth-semester students. The session was delivered by Mr Saaish B, an alumnus of the 2021–2025 batch, who is currently working as a Solution Architect at Leucine, Bangalore.</p> <p>During the interaction, Mr Saaish B shared his professional journey and provided valuable insights into Smart Contract Architecture and emerging trends in blockchain technology. He emphasised the importance of understanding blockchain fundamentals, decentralised applications, smart contracts, and secure system design in today’s software industry. He also highlighted the growing career opportunities in Web3 technologies and blockchain-driven solutions.</p> <p>The speaker encouraged students to actively participate in hands-on projects related to blockchain applications, decentralised platforms, and smart contract development to strengthen their practical skills. He further stressed the need to learn modern development frameworks, version control systems, debugging techniques, and security practices essential for building reliable and efficient blockchain systems.</p> <p>The session was highly interactive, allowing students to clarify their queries regarding career prospects in blockchain technology, required technical skill sets, certification pathways, and current industry expectations. Mr Saaish B motivated students to continuously upgrade their skills, engage in innovative projects, and build strong professional portfolios to enhance employability in emerging technology domains.</p> <p>Overall, the Alumni Talk was both informative and inspiring, offering students deeper insights into Smart Contract Architecture and guiding them towards successful careers in blockchain and software development. More than 60 sixth-semester CSE students attended the session and benefitted from the knowledge shared.</p>
