

GUEST TALK – EVENT REPORT

Profile Building for Top Universities Abroad and Global Opportunities

Date	8th October 2026
Time	11:00 AM – 01:00 PM
Venue	Falconry Seminar Hall
Target Participants	5th Semester Students
Resource Persons	Mr. Subhankar Dhar, Lead Mentor Mr. Shambhu, Student Awareness Head
Coordinator	Mr. Rahul B, Senior Assistant Professor – CSE
Convener	Dr. Uma Reddy N V, Dean – CSE
Organized by	Department of Computer Science and Engineering

The Department of Computer Science and Engineering, New Horizon College of Engineering, organized a Guest Talk on **“Profile Building for Top Universities Abroad and Global Opportunities”** on 8th October 2026 from 11:00 AM to 01:00 PM for the 5th Semester students. The session was held in the Falconry Seminar Hall. The objective of the programme was to guide students on how to build a strong academic and professional profile for admission to reputed universities abroad, and to make them aware of the global opportunities available to engineering graduates.

Resource Persons

The guest talk was conducted by **Mr. Subhankar Dhar**, Lead Mentor, and **Mr. Shambhu**, Student Awareness Head. Drawing on their experience in mentoring and guiding students, they shared practical perspectives on planning higher education abroad and on preparing early to become a competitive applicant.

Theme of the Session

The session focused on the theme “Profile Building for Top Universities Abroad and Global Opportunities”. It helped students understand that a strong application is built over several semesters, and not just at the time of applying. The discussion connected academic performance, technical skills, projects, internships, and extracurricular involvement with the expectations of global universities and employers.

Building a Strong Academic and Professional Profile

The speakers explained the key components that contribute to a competitive profile for higher studies abroad, including consistent academic performance, meaningful projects, internships, research exposure, certifications, and participation in technical and co-curricular activities. Students were encouraged to focus on the quality and relevance of their experiences, and to start building their profile from the early semesters.

Awareness of Global Opportunities

Students were made aware of the various pathways available after engineering, such as pursuing higher studies abroad and exploring international career options. The speakers discussed the importance of understanding the application process, planning timelines in advance, and preparing the required documents and qualifying requirements well ahead of the application period.

Interaction with Students

The session was interactive, and the 5th Semester students actively engaged with the resource persons. Students sought guidance on planning their academic years, choosing projects, improving their profile, and preparing for higher education and global career opportunities. The interaction helped them clarify their doubts and gain a clearer direction for their future plans.

Outcome of the Programme

The programme gave students a better understanding of what top universities and global organizations look for in a candidate. It motivated them to make effective use of their remaining academic years by strengthening their skills, taking up meaningful projects and internships, and planning their career paths in a structured manner.

Conclusion

Overall, the Guest Talk on “Profile Building for Top Universities Abroad and Global Opportunities” was informative and beneficial for the 5th Semester students. The guidance provided by Mr. Subhankar Dhar and Mr. Shambhu will help students prepare themselves for higher studies and global opportunities. The Department of Computer Science and Engineering thanks the resource persons for sharing their time and insights with the students.

Student Participation: The programme was attended by the 5th Semester students of the Department of Computer Science and Engineering, who actively participated in the session.
